

Instruction: Answer all the questions in this section

1. Which of the following skills are needed for present day teacher to adjust effectively with the classroom teaching?

- I. Knowledge of technology
- II. Use of technology in teaching learning
- III. Knowledge of students' needs
- IV. Content mastery

(A) I & III (B) II & III (C) II, III & IV (D) II & IV

2. The primary duty of the teacher is to

- (A) raise the intellectual standard of the students
- (B) improve the physical standard of the students
- (C) help all round development of the students
- (D) imbibe value system in the students

3. Micro teaching is more effective

- (A) during the preparation for teaching-practice (B) during the teaching-practice
- (C) after the teaching-practice (D) always

4. What quality does students like the most in a teacher?

- (A) Idealist philosophy (B) Compassion (C) Discipline (D) Entertaining

5. A null hypothesis is

- (A) when there is no difference between the variables (B) the same as research hypothesis
(C) subjective in nature (D) when there is difference between the variables

6. The research which is concerned exploring new facts through the study of the past is called

- (A) Philosophical research (B) Historical research
(C) Mythological research (D) Content analysis

7. Action research is

- (A) An applied research (B) A research carried out to solve immediate problems
(C) A longitudinal research (D) Simulative research

8. The process not needed in Experimental Researches is

- (A) Observation (B) Manipulation (C) Controlling (D) Content Analysis

9. Manipulation is always a part of

- (A) Historical research (B) Fundamental research
(C) Descriptive research (D) Experimental research

10. Which correlation co-efficient best explains the relationship between creativity and intelligence?

- (A) 1.00 (B) 0.6 (C) 0.5 (D) 0.3

11. The country which has the distinction of having the two largest circulated newspapers in the world is

- (A) Great Britain (B) The United States
(C) Japan (D) China

12. The chronological order of non-verbal communication is

- (A) Signs, symbols, codes, colours (B) Symbols, codes, signs, colours
(C) Colours, signs, codes, symbols (D) Codes, colours, symbols, signs

13. Which of the following statements is not connected with communication?

- (A) Medium is the message. (B) The world is an electronic cocoon.
(C) Information is power. (D) Telepathy is technological.

14. Communication becomes circular when

- (A) the decoder becomes an encoder (B) the feedback is absent
(C) the source is credible (D) the channel is clear

15. January 1, 1995 was a Sunday. What day of the week lies on January 1, 1996?

- (A) Sunday (B) Monday (C) Wednesday (D) Saturday

16. Deductive argument involves

- (A) sufficient evidence (B) critical thinking
(C) seeing logical relations (D) repeated observation

17. Inductive reasoning is based on or presupposes

- (A) uniformity of nature (B) God created the world
(C) unity of nature (D) laws of nature

18. To be critical, thinking must be

- (A) practical (B) socially relevant
(C) individually satisfying (D) analytical

19. Which of the following is an analogous statement?

- (A) Man is like God
(B) God is great
(C) Nana Addo Dankwa Akufu Addo is the Father of the Nation
(D) Man is a rational being.

20. Which is the largest unit of storage among the following?

- (A) Terabyte (B) Megabyte (C) Kilobyte (D) Gigabyte

21. Which of the following is more interactive and student centric?

- (A) Seminar (B) Workshop (C) Lecture (D) Group Discussion

22. Classroom communication is normally considered as

- (A) effective (B) affective (C) cognitive (D) non-selective

23. Taxonomy of teacher behaviour is developed by

- (A) Workshop (B) Refresher course (C) Simulated training (D) Micro teaching

24. Which of the following is not a characteristic of a gifted child?

- (A) High Intelligence (B) High Achievement
(C) Critical Analysis (D) Conformist Attitude

25. Which of the following is true for intelligence and creativity?

- (A) All intelligent children are creative. (B) All creative children have high IQ.
(C) Some creative children have high IQ. (D) Some creative children have low IQ.

26. Which of the following terms is related to the idea of validity of a test?

- (A) Errors of measurement (B) True score variance
(C) Common factor variance (D) Random errors

27. While writing a general instructional objective, the most appropriate action verb would be

- (A) States (B) Names (C) Recognizes (D) Analyses

28. Which of the following is not true for a specific aptitude?

- (A) Acquired through long experience (B) Measures potential for future behaviour
(C) Relates to limited aspect of behaviour (D) Result of past learning or schooling

29. What are the stages involved in a comprehensive guidance programme?

Choose the correct sequence of stages

- (A) Taking action, referral, appreciating problem, accepting individual, consideration of problem
(B) Consideration of problem, appreciating problem, referral, taking action, accepting individual
(C) Appreciation of problem, accepting individual, referral, consideration of problem, taking action
(D) Accepting individual, appreciating problem, consideration of problem, taking action, referral

30. What is Guidance?

I. Helping a person systematically to overcome his/her difficulties.

II. Helping an individual to understand himself/herself, his/her needs and his/her environment.

III. Helping a boy, going out of the way, to score more marks.

IV. Giving a mild electric shock and activating the brain of a person mentally disturbed.

Choose the correct answer from the given codes:

Codes:

(A) I and II

(B) II and III

(C) III and IV

(D) IV and I

31. Which one of the following is the broadest in scope of treatment?

(A) The school as a social organisation

(B) Educational Sociology

(C) Social Foundations of Education

(D) Sociology of Education

32. The nature of truth is basically a problem for

(A) Law

(B) Ethics

(C) Epistemology

(D) Axiology

33. One of the appropriate statistics that can be used for Solomon four experimental designs is

(A) Correlational Analysis

(B) One-way ANOVA

(C) Chi-square

(D) Median Test

34. Pre-test-post-test randomized matching control group design is an example of

(A) True experimental design

(B) Pre- experimental design

(C) Quasi-experimental design

(D) Post-facto experimental design

35. What is the distinction between formative and summative evaluation of curriculum?

I. Formative Evaluation considers a part of the course content, midway of the course and provides feedback.

II. Formative Evaluation is concerned with the form and structure of the course.

III. Summative Evaluation considers the whole course content at the end of the course, for taking important decisions.

IV. Formative Evaluation and Summative Evaluation are complementary.

Choose the correct answer from the given options:

- (A) I, II and III (B) II, III and IV (C) II, IV and I (D) I, III and IV

36. What are the main concepts of a curriculum?

- I. Experience II. Subject III. Objective IV. Teaching

Choose the correct answer from the given options:

- (A) I, II and III (B) II, III and IV (C) III, IV and I (D) IV, I and II

37. A method in which the skill and expertise of many teachers is combined to teach a class is called as

- (A) Panel discussion (B) Group discussion (C) Team teaching (D) Tutorial method

38. International Institute of Educational Planning is at

- (A) London (B) Paris (C) New York (D) Accra

39. Who of the following governs in a democracy?

- (A) The Minister (B) The People (C) The Leaders (D) The Bureaucrats

40. The Father of Creativity in Education

- (A) Charles Spearman (B) Torrance E.P. (C) Thorndike E.L. (D) Skinner B.F.

41. Which of the following is not a characteristic of intellectual development of later childhood?

- (A) Careful for future (B) End of imaginary fears
(C) High interest in science fiction (D) Increased logical power

42. Which of the following is not assessed by using essay type questions?

- (A) Thinking skills (B) Knowledge of wide content area
(C) Supplying suitable arguments (D) Detailed description of an event

43. 'Basal Age' is related to the measurement of

- (A) Personality (B) Attitude (C) Intelligence (D) Aptitude

44. Identify the odd item among the following:

- (A) Cooperation (B) Competition (C) Interaction (D) Conflict

45. 'Longitudinal Studies' are a type of

(A) Historical studies

(B) Developmental studies

(C) Survey studies

(D) Philosophical studies

46. Ethnomethodology study encompasses on

(A) Philosophical research (B) Historical research (C) Experimental research

(D) Sociological research

47. What are the components of Tyter's model of curriculum?

(A) Purpose, Educational Experiences, Effective Organisation of Experiences, Verification of Goal.

(B) Aims, Subject Content, Teaching, Evaluation

(C) Aims of Education, Organisation of Content, Testing, Feedback

(D) Subject Content, Teaching, Learning, Testing

48. The barrier created in communication due to the dual meaning of words is a

(A) Semantic barrier to communication

(B) Psychological barrier to communication

(C) Technological barrier to communication

(D) Environmental barrier to communication

49. Which is the best form of government to develop education?

(A) Aristocracy

(B) Monarchy

(C) Democracy

(D) Dictatorship

50. The concept of Intelligence Quotient was first given by

(A) J.P. Guilford

(B) Alfred Benet

(C) J.S. Bruner

(D) William Stern

TRUE OR FALSE STATEMENTS

51. Problem solving ability cannot be achieved by using objective test items?

(A) TRUE

(B) FALSE

52. Internship Programme of teacher education provides a complete school environment.

(A) TRUE

(B) FALSE

53. Interview is considered as the best tool for assessing the gravity of the client's problem because it helps to get first-hand information about the client and his/her problem.

(A) TRUE (B) FALSE

54. Modernization is a type of social change in which society becomes more stratified

(A) TRUE (B) FALSE

55. The first country to establish Open University was U.S.A.

(A) TRUE (B) FALSE

56. Developmental study is not a type of Descriptive Research method?

(A) TRUE (B) FALSE

57. In determining "Objectives" in the development of a curriculum for the secondary level, Socio-psychological needs of the individuals of the level concerned and Economic needs of the society must be considered.

(A) TRUE (B) FALSE

58. 'Learning at one's own pace' is a special feature of Teacher-centered method

(A) TRUE (B) FALSE

59. The need for measuring intelligence of children emerged out of concern for helping slow learners.

(A) TRUE (B) FALSE

60. The knowledge of educational psychology mostly helps the teacher to choose right instructional approach

(A) TRUE (B) FALSE

61. The child who reads numbers wrongly has the learning disability known as Dyscrasia

(A) TRUE (B) FALSE

62. The process of assigning numerals to objects according to some rules is termed as Analysis.

(A) TRUE (B) FALSE

63. A less experienced learner acquires knowledge and skills under the guidance of an expert is a concept of Scaffolding.

(A) TRUE (B) FALSE

64. The following add to the resourcefulness of a practitioner of Guidance.

I. The skill of listening and face reading

II. Empathy

(A) TRUE (B) FALSE

65. Education leading to unemployment is an example for Dysfunctional social change.

(A) TRUE (B) FALSE

66. Inclusive Education refers to equal educational opportunities to disabled and normal students.

(A) TRUE (B) FALSE

67. Reading-disability in primary grades develops feelings of Security.

(A) TRUE (B) FALSE

68. While conducting experimental research a researcher should control the extraneous variables

(A) TRUE (B) FALSE

69. 'Subject Mortality' leads to internal invalidity of Philosophical Research.

(A) TRUE (B) FALSE

70. The following can be considered when drafting guidelines for organizing the content in a subject curriculum?

(A) TRUE (B) FALSE

71. During Observation of a Teacher, co-curricular activities are considered.

(A) TRUE (B) FALSE

72. Promotion Interview for Teachers can be considered as an Assessment tool.

(A) TRUE (B) FALSE

73. Deductive method of teaching leads Students to discover what is to be established through questions and answers and experiments.

(A) TRUE (B) FALSE

74. The developmental domains of childhood development are three.

(A) TRUE (B) FALSE

75. As far as the Psychology of the Child is concerned the following can be thought of: temperament, temper, disposition, behaviour and way of thinking.

(A) TRUE (B) FALSE

KING SOLID
