**INVITATION TO PARTNER WITH GLOBAL SKILLS HUB UNITED KINGDOM FOR SUBSIDISED UK CPD-ACCREDITED
TRAINING FOR AFRICAN WORKERS**

Dear sir,

The Management of **Global Skills Hub United Kingdom**, organisers of the popular annual **Africa Education Summit**, is pleased to invite your **esteemed workers' organisation** to partner with us in providing your members with access to highly subsidised professional development training programmes delivered by our organisation.

Every year, workers from different parts of Africa travel to the United Kingdom to undertake **CPD** programmes with Global Skills Hub United Kingdom. Among our most popular programmes are Leadership in the Workplace and Mental Health in the Workplace.

Participants who travel to the United Kingdom to undertake these programmes normally incur significant costs associated with flights, visas, accommodation and other travel expenses, in addition to a **£450** registration fee.

Following discussions with our partners, we have decided to make these training programmes accessible to African workers under a special initiative without the need to travel to the United Kingdom. The programmes will therefore be delivered online, while the applicable UK CPD certificates will still be issued to participants who successfully complete the required programme requirements.

The online training will take place between January and March 2027 and will cover:

- Leadership in the Workplace
- Mental Health in the Workplace

As part of this special initiative, participants will pay only a **\$20 commitment fee**, with no other training charges.

To make the programme accessible to participants across different African countries and to minimise challenges associated with internet connectivity and different time zones, lectures will be delivered through recorded video materials sent to participants by email. Participants will be required to watch the lectures within the stipulated timeframe and complete the relevant online examinations and assignments.

Following completion of the examinations, participants will be able to see their examination scores immediately.

Participants who successfully complete the relevant requirements will receive the applicable UK CPD certificates in Leadership in the Workplace and Mental Health in the Workplace. These certificates may be used as evidence of continuing professional development and may support participants' career development, promotion applications, job applications in the UK and professional CVs, subject to the requirements of individual employers and professional bodies.

The **Leadership in the Workplace CPD course** is delivered by **Jerry Vreeman**, an experienced American leadership trainer and **Executive Director of Leadership in Obscurity Network (L.I.O.N.)**, who is also a **certified instructor with the John Maxwell Leadership Organisation**.

We are therefore respectfully inviting you to partner officially with Global Skills Hub United Kingdom in making this opportunity available to your members.

Your organisation may support the initiative by helping to mobilise interested members and coordinate the list of participating members. Alternatively, individual members may register directly through our website:

www.globalskillshub.co.uk

We believe this initiative presents an excellent opportunity for workers across Africa to access international professional development without the significant financial and logistical challenges associated with travelling abroad.

We would be delighted to work with you and look forward to establishing a mutually beneficial partnership.

Please feel free to contact us for further information or to discuss the partnership and registration arrangements.
